CURRENT TOPICS.

LITHOGRAPHIC stone is found in Walker County, Ga.

Unborn seal skin saquees find favor in some quarters.

It is said that Buffalo Bill began life as a printer's devil.

A prominent undertaker at Reno, Nev., is Coffin C. Bier.

When the mice of the stove doors with salt and vinegar.

A citizen of Pekin, Ill., rejoices in the name of Bloomport.

Honey is much used for curing hams now, instead of sugar.

Mr. Warren, of Boston, says that Adam lived at the North Pole.

Washington's new \$2,000,000 hotel is to be called the Windsor.

Three portraits of the Florida orange crop has been marketed.

Arkansas raises a voice in favor of free text books and against free passes.

An article well at Waynesboro, Ga., came on human bones 400 feet deep.

Wounded knee is the name of a saw post office in Shannon County, Dakota.

A statistician claims there is one divorce to every four and a half marriages.

Lotta, who upon the stage looks about twenty years old, was forty the other day.

A frozen rabbit on the rail at Golden, Ill., upset a handcar, breaking a man's leg.

The number of idiots in the United States increased from 34,537 in 1870 to 75,545 in 1880.

The United Labor party has put a full municipal ticket in the field at Philadelphia.

Business in Buenos Ayres is entirely suspended owing to the prevalence of cholera.

Two citizens of Canova, D. T., ran a foot race through the snow the other night in their bare feet.

The remains of Gambetta will soon be removed to Paris and placed in the vaults of the Pantheon.

There is an Indian reservation of 73,000 acres in North Carolina inhabited by about 2,000 Cherokees.

In St. Louis the other afternoon more than 10,000 people turned out in a body to hunt for a ghost.

It has been forty years since more than one ballot has been required to elect a U. S. Senator in Indiana.

A New York society lately has been offered \$1,000 to sign her name to a patent medicine advertisement.

The merchants of Savannah, Ga., propose adopting business hours extending from 9 a. m. to 6 p. m.

Jefferson Davis has been presented with a cane cut from a tree which shaded him at the time of his surrender.

The girls of Peru, Ill., are said to have formed a toboggan club, the members of which slide down hill on barrel staves.

A New York paper suggests that the dudes of that city be organized and sent to Central Africa to the relief of Emin Pasha.

The new articles well now being bored at Charleston, S. C., is over 1,100 feet deep already, with a diameter of twelve inches.

"Bill Ann" is delivering a series of lectures in Mississippi for the benefit of the Confederate monument at Jackson, Miss.

The wife of Senator Stanford, of California, wore \$500,000 worth of diamonds and jewels at the late Presidential reception.

The Rothschilds, who now control all the gold and silver mines in the world, are said to be intending extensive investments in gold mines.

An anarchist spine says that Sheriff Matson's refusal to allow him to wed Miss Van Zandt will "upset every throne in Europe."

France is buying large timber tracts in Alsace-Lorraine, apparently for the purpose of building wooden barracks along the frontier.

There are rumors in London of a coming divorce case in which the principal parties will be the Princess Louise and the Marquis of Lorne.

Connellus Vannevar is going into the dairy business extensively on the farm in Rhode Island which he recently bought from August Belmont.

A man who imagined himself a telephone, and who has been trying for a year to shout "Hello!" in his own ear, was sent to an asylum at Flatbush, L. I.

There are at this time 15,000 more manufacturing establishments in the Southern States than in 1860, representing a cash in investment of over \$600,000,000.

The highest spot inhabited by human beings is said to be the Buddhist cloister at Hase, Tibet, where twenty-one priests live at an altitude of 14,000 feet.

Henry M. Frick has again started for the "dark" continent. As he is backed by a strong army, the chances are that he intends to change the color of red.

It is stated that Italy has declared its severest universities open to women. Switzerland, Norway, Sweden and Denmark have taken similar action.

A young woman of Lynn was recently poisoned by the arsenic washed on to her face from two birds on her bonnet while she was riding during a rain storm.

The son of the Duchess de Galliera probably has the finest collection of postage stamps in the world. It fills 400 volumes and has cost him more than \$30,000.

The tooth of a citizen of North Strathaven, Pa., is all double. He can crack a walnut, bite a two-penny nail in two or lift a quarter of beef with his teeth with ease.

A NAUGHTY editor says: "A new design for the obelisk has been submitted to the Harrow paper mill at Wellesburg, W. V., exploded to-day, killing John and Thomas Nelson and severely injuring John Parish. The damage to the building was \$2,000.

For the Relief of Starving Texas.

AUSTIN, TEX., Jan. 26.—A bill appropriating \$100,000 for the relief of sufferers by the drought was passed in the Senate to-day with the necessary two-thirds majority to give it immediate effect.

THE FISH CRISIS.

Some of the Comments Made by the Canadian Press.

Contemptuous Allusions to United States Senators—The Feeling in New England.

Toronto, Jan. 25.—Referring to the Washington fisheries legislation, the *Globe* of to-day says: "The United States Senate, since it became a caucus of plutocrats has displayed little statesmanship, and its decadence in the general esteem will be furthered by its 'retaliatory' fisheries bill. When so regular evidence was before them, and with access to rebuttal of the statements of the angry fishermen, the Senators in the United States have brought Canada up for trial, pronounced her guilty and put a weapon for her punishment into the President's hands. The use of that weapon will injure American trade at least as much as Canadian. It does not lessen the contempt due to the Senatorial legislators. Their game, in this diplomatic aspect, is the old one of alarming Great Britain into bull-dozing Canada." The *Well* says: "A retaliatory measure has been passed by the United States, and as a result poor Canada is to suffer all the frowns of the 'Zephrine' if she persists in forcing her treaty rights. The Canadian authorities simply required fishermen to obey the Customs laws, and as all American vessels frequenting Canadian ports are obliged to obey and to report on entrance and to clear regularly upon departure. Only two seizures were made for the violation by Americans of the treaty by purchasing bait. The Canadian Government has not in a single instance refused any fair rights of hospitality, having allowed all reasonable facilities for shelter, repairs, obtaining wood and water, getting medical advice and reasonable supplies for the sustenance of life when vessels have run out of these, and for this Eastern fishermen want the American people to refuse to purchase from or sell to Canada."

New York, Jan. 25.—A Boston special says that the fish dealers of New England are delighted with the passage of the Edmunds resolution. They say that if the Canadians are shut out it will bring them to their senses and force the Canadian Government to take off the restrictions on American vessels. Mayor O'Brien said: "The conduct of the Canadian authorities has been inhuman and brutal. We gain nothing from Canadians in equivalent for what we give them. The balance of trade is always in their favor, and I am glad that Congress has waked up and adopted the policy of retaliation. I think that the provisions of the bill are eminently just and right." Leopold Moss said: "Congress has just got sick of this sort of thing, and is going to show that what is sauce for the goose is sauce for the gander, and if Canada wants to enjoy commercial relations with us, she has got to behave herself. There have been so many complaints and transgressions and so much trouble that it was about time to cry halt, and the action of our Representatives shows that matters have come to a crisis."

ATLANTA, Ga., Jan. 25.—The House yesterday adopted resolutions favoring the retaliatory legislation proposed by Congress by the Government against Canada.

CRAZED BY THE QUAKE.

A Supposed Fireman Found Wandering Naked on a Mountain.

New York, Jan. 25.—A special to the *World* from Wolf Creek, Tenn., says: George Caldwell, while bear hunting a few days ago on Balsam Mountain, one of the highest mountains in North Carolina, discovered a man almost naked wandering aimlessly around in the snow, which was nearly two feet deep, and eight miles from the nearest habitation. On seeing Caldwell he started to run, but was easily overtaken and captured. His clothing was found to consist of a flannel undershirt, which was torn into shreds, and one shoe. His feet were frostbitten and legs fearfully scratched by briars. He is a veritable living skeleton. All efforts to get him to tell his name or give an intelligible account of himself have so far failed. When spoken to he becomes violent, tries to get away and talks deliriously about being a fireman on an engine in Charleston when the big shake came. It is with difficulty he can be made to take nourishment. It is supposed he was crazed by the earthquake shock of August 31, and wandered to the uncared-for mountain, but how he has lived this long is a mystery. Caldwell will take steps to restore him to his friends.

Slain by His Child Wife.

WELLSBORO, Pa., Jan. 25.—In a family quarrel this morning Jake Van Woert, a farmer, lying a mile below Stockdale Junction, on the Pine Creek railroad, was shot and instantly killed by his sixteen-year-old wife. Two shots were fired, Sheriff Forris has gone to arrest Mrs. Van Woert.

The Alleged Express Messenger Murderer.

MONROE, ILL., Jan. 25.—Henry Schwartz was taken before a police magistrate for preliminary examination, charged with the murder of the Rock Island express messenger. The examination was postponed until Wednesday of next week.

Killed by a Boiler Explosion.

STURGEVILLE, O., Jan. 25.—A boiler in the Harrow paper mill at Wellesburg, W. V., exploded to-day, killing John and Thomas Nelson and severely injuring John Parish. The damage to the building was \$2,000.

For the Relief of Starving Texas.

AUSTIN, TEX., Jan. 26.—A bill appropriating \$100,000 for the relief of sufferers by the drought was passed in the Senate to-day with the necessary two-thirds majority to give it immediate effect.

SHOOTING FIVE MILES.

Great Things Predicted of the Final Trip of the Atlanta.

New York, Jan. 27.—When the steel cruiser Atlanta goes out on the third and final trial trip, the last of next week, it will assume for the first time the dignity of a fully equipped man-of-war. The guns will be placed in position this week. Among the guns which belong to the equipment are two of twenty-four foot length with an eight-inch bore. It costs the Government \$150 to fire one of these guns, owing partly to the fact that a very expensive powder, which can be obtained only in Germany, is used. The projectiles for these guns are also obtained from Germany. They weigh 300 pounds, go at the rate of 2,000 feet per second and explode on striking. These two big guns shoot accurately a distance of five miles. The guns are all made at the Ordnance department of the Washington navy yard, and were tested at the Annapolis proving grounds. In order to satisfy the demands of the Government the Atlanta must show an average speed of sixteen knots for six consecutive hours and 3,500 horse power. On the last trip seventeen knots an hour were made for the required time, but only 2,500 horse power could be shown. Hence there have been alterations in the machinery have been made.

A MONSTER STRIKE.

Fifty Thousand Men Go Out at New York.

New York, Jan. 27.—Twenty thousand men are now on strike among the coal shovellers, longshoremen, freight handlers and men employed on the river front in almost every capacity, and the number is augmented to close on fifty thousand by the strikers on the Brooklyn and Jersey shore. In consequence it is almost impossible for any of the steamers for Europe or coastwise to leave port. It is thought that the pilots will be drawn into the struggle. Their interests are with the workmen, and it is alleged that out of sympathy if for no other reason they will refuse to take out the ships. One of the ideas of the leaders is to level up, and another is, and it is the principal one, to attract the attention of the business community and force it to take some cognizance of the strike.

"I'm All Right, But Bad Scared."

LAFAYETTE, IND., Jan. 27.—While a switch-engine was at work in the Walshaw yards, this city, a small colored girl was knocked down and fourteen cars passed over her. Everybody expected the child was ground to atoms, but as soon as the train stopped a woody head protruded from between the drive-wheels of the engine, and a little voice piped up sharp and shrill: "I'm all right; I ain't hurt, but I'm awful bad scared." The child had been caught up by the shafts of the engine about the time the train was stopped, and thus fortunately escaped. She had held on to a little rail she was carrying out the time, and as soon as she could crawl out, ran off home, as though nothing had occurred.

The Canucks Weakening.

HALIFAX, Jan. 27.—Hon. M. S. Phelan, United States Consul General, does not believe the Canadian authorities will act so harshly against him as they did last season, and is of the opinion that orders will be issued to commanders of cruisers to give more freedom to American fishermen. He is partly led to hold this belief by the decided front presented by Congress, which he considers will have the effect of showing Canada that the United States does not intend to be trifled with. While nobody expects a warlike conflict, the public generally are now giving more serious attention to the attitude of the United States Congress on the fisheries question.

Poverty and Cromation.

PATTOCK, KY., Jan. 27.—Two colored children, aged ten years, were burned to death in a horrible manner this morning in the outskirts of the city. The mother who had been driven from the house for non-payment of rent, then tied upon a straw mattress upon the common and built a fire. Flying sparks set fire to the mattress, and the children were almost consumed before their condition was discovered.

A Victim of the Republic Horror.

MANHATTAN, O., Jan. 27.—This afternoon John Tobill began suit for \$50,000 against the B. & O. railroad for damage sustained in the wreck at Republic. Tobill is at Mansfield, and is constantly attended by two nurses, his sister and niece. He becomes delirious at times, and his cries can be heard in the whole neighborhood. His hands are about healed, but the crown of his head is destitute of hair, and is a mass of cooked meat. His death is looked for.

A Monogamian's Journey.

CHICAGO, Jan. 27.—Wm. Reed, a gray-haired man, eighty-nine years old, walked into the Army last night and asked for a night's lodging, stating that he was on his way to Albany, N. Y., from California. He said he left Albany last summer to seek a living in California. Failing to find one he determined to return to his friends in the East, but as he was unable to purchase a ticket was obliged to walk.

Ice-Boats Collide.

EARL, PA., Jan. 27.—Two ice-boats came into collision on Eye Bay this evening and were crushed. George Probert was fatally injured. The boats were running at the rate of forty-five miles an hour.

Doubly Fatal Shooting Affray.

FRANKLIN, LA., Jan. 27.—A shooting affair occurred at Centerville on Tuesday between two men named Simonaux and Gordy. Simonaux was shot through the head, and died from the effects of his injuries this morning. Gordy was shot through the breast, and is thought to be mortally wounded.

Will Not Employ Knights of Labor.

WORCESTER, MASS., Jan. 27.—Most of the shoe factories here and at Spencer, Mass., have posted up notices that they will not be open to Knights of Labor.

PARALYZED.

No Business Done on New York's Great Wharves.

All Ocean Travel is to be Stopped by the Strikers.

New York, Jan. 28.—Business on the river front this morning is almost completely at a standstill, and, with the exception of a small amount of freight being moved by green boats on one or two piers, little work has been done on the docks of the principal steamship companies since the strike of the longshoremen commenced. The strikers are confident that they will succeed and gain their demands. Their next move will be to get the pilots on the ocean steamer service to come out. The pilots are organized, and should the order go out for them to quit work, the strikers hope to stop all transatlantic steamers from sailing in or out of port. This, the union men claim, will compel the steamship companies to come to terms. At the National Live dock this morning sixty men, who were picked up from various sources, were laid off as they were incompetent. The "Wyoming" was being unloaded by non-union men and the sailors of the vessel. The latter are paid thirty cents per hour in addition to their pay as seamen. The green heads were immediately taken in charge by members of the Longshoremen's Union and were organized and became part of the strikers' union.

DEER STORY FROM DETROIT.

Remarkable Capture of a Buck on a Cake of Floating Ice.

DETROIT, Mich., Jan. 28.—Some hunters on the Canadian side of the Detroit river, while after a deer yesterday, chased it to the river's edge. The river was full of large cakes of floating ice, and the animal sought to cross by jumping from one to another. A large crowd gathered on the dock on this side of the river and preparations were made for his capture. The captain of the transfer steamer Lansdowne backed out to the stream and throwing a rope over the deer's horns, hauled it on board. The creature was made aware of the foot of Eighteenth street, the deer having crossed from Sandwich. The story is well authenticated.

K. of L. and the Pinkerton's.

CHICAGO, Jan. 28.—The Knights of Labor have declared war upon the Pinkertons and other detective agencies which make it a business to furnish armed patrolmen for services in labor troubles, and within the last thirty days bills prohibiting the importation of Pinkerton detectives and making it a penal offense for any employee of such agency to exercise authority as an officer of the law, will be introduced in nearly every State Legislature which is now in session in this country. This fact was learned upon undoubted authority this morning, and it was also developed that the movement originated in Chicago.

Is Germany Preparing for War?

BERLIN, Jan. 28.—Emperor William announced that seventy-two thousand reserves will be called out at once. Speaking later, he said that it did not mean war, but was simply intended to familiarize them with the new repeating rifle. Crown Prince Frederick William, however, is quoted as saying that the situation is still serious. The reported fact that Germany has made arrangements to erect barracks at various points along the French frontier carries out the Prince's statement.

A Colored Woman Turns Burglar.

BALTIMORE, Jan. 28.—This morning Mary Jones, a colored woman, was shot while burglariously entering the wholesale grocery of Wagner, Evans & Rountree. A person was seen to enter by a rear window, but in the darkness it could not be discovered that the party was a woman, and Mr. Rountree fired a shot-gun at the figure, which fell inside the building. The wounds are not serious, though 178 shots have been taken from her side, arm and shoulder.

Glass in the Biscuits.

DETROIT, Mich., Jan. 28.—A servant girl in the family of a man named Whalley, in Oscoda County, was churning a few days ago. She accidentally broke a tumbler, the pieces falling into the cream. She removed all the fragments as she supposed, and made biscuits, using the butter milk, and the result is a son of the household has a number of pieces of glass in his stomach and will probably die.

Boiler Let Them Go Free.

MONTREAL, Jan. 28.—The Canadian Government has decided to release the American fishing schooners *Jeannette* and *Maggie Mitchell*, seized by the cruiser *Middleton* at St. Andrews, N. B., a few weeks ago, on the payment of fines of \$50 and \$100 respectively. The charge was for an infraction of customs and fisheries regulations.

Michigan to Try Prohibition.

LANSING, MICH., Jan. 28.—The State Senate, last night, passed the joint resolution to submit a prohibitory amendment to a vote of the people by a vote of 23 to 10.

A Prohibition Amendment in Tennessee.

NASHVILLE, TENN., Jan. 28.—The Senate today passed on its final reading the Prohibition amendment to the constitution, the vote being 31 to 2.

Sullivan's Broken Arm.

NEW YORK, Jan. 28.—Dr. Sayre examined John L. Sullivan's broken arm and found that it had been improperly set. He informed Sullivan of the fact, and with his consent, broke it again by a sudden twist and reset it. Sullivan flinched with the pain.

Knights of Labor Suing for Damages.

BALTIMORE, Jan. 28.—Assembly 1,834, of the Knights of Labor, of this city, have filed suit against Ruth & Son, for alleged violation of contract to pay the wage of wages for one year, claiming \$1,400 damages.

CEMENTATION.

The New Process Used at the Burial of David H. Thomas at Niagara Falls.

BUFFALO, N. Y., Jan. 30.—The funeral of David H. Thomas, late Superintendent of the Erie railroad, took place at Susquehanna Bridge this afternoon. A delegation of Buffalo people, including the board of health, were present to witness the new antiseptic process of "cementation" which the remains were to be treated to. The grave was sixteen inches larger each way than usual. Eight inches of cement were then put in the open grave, and the outer case was lowered so as to set squarely upon the cement, leaving a small trench eight and a half inches wide about the case, the upper surface of it being eight inches lower than the surface of the ground. The trench was then filled with cement and the casket lowered into the case. The cover was screwed on and eight inches more of cement placed over it, bringing the surface of the cement level with the ground. The process produced a favorable impression on the spectators. The process by which it was at first proposed to bury the body was to place plain sulphur and powdered charcoal, with alcohol between the casket and outer case. Then setting fire to it, screw the lid on, the object being to absorb all liquids in the body and neutralize the gas arising from the body. The gas generated by the burning sulphur would prevent decomposition. Among other advantages this form of burial secures its protection from gypsy robbers.

A KENTUCKY LYCHING.

William Cornish, Who Shot Lela Green, Taken from Jail and Hanged.

LOUISVILLE, KY., Jan. 30.—Last Monday William Lud Cornish, of Sharpshurg, Washington County, shot Miss Lela Green through the heart and brain because she would not marry him. He also tried to kill his mother and sister, but failed on account of his pistol getting out of order. The mother received a severe wound in the hand, and was knocked down with the pistol. Cornish was captured and taken to Springfield, the county seat. Last night a mob composed of 75 men entered the jail and secured the prisoner. He was taken to a farm about two miles north of town and hanged.

Chinese Muldoons.

NEW YORK, Jan. 30.—No. 56 Fulton street, Brooklyn, has been known as a Chinese tea store, but to-night the police battered down the doors and captured seventy-four Chinese gambling and \$50,000 in cash. Three prisoners had \$7,000 each, and two \$5,000 each. They came from San Francisco, St. Louis, Chicago, Pittsburgh, Newark and Paterson, N. J., for the purpose of breaking the bank of the gambling house at the address named.

Extortion and Perjury.

WILKESBARRE, PA., Jan. 30.—Thomas O. Evans, burgess of Nanticoke, was convicted in the criminal court here, yesterday, of extortion and perjury in office. Among the charges was that of committing Hungarians and Poles to prison without authority, and imposing and collecting fines which were not warranted under the law. Counselman John Lynch was counsel for the defendant. The trial created intense interest and excitement.

Logan Memorial at Williamsburg.

LONG ISLAND CITY, N. Y., Jan. 30.—Fully twenty-five hundred persons attended the services commemorative of General John A. Logan at Grand Army Hall, Williamsburg, this evening. The services were held under the auspices of Mansfield Post, No. 85, G. A. R. The hall was appropriately draped and the services were very impressive.

Cholera Disappearing in Buenos Ayres.

BUENOS AYRES, Jan. 30.—The sanitary condition of this country is now very good. The cholera has completely disappeared from Cordova and nearly so from Tucuman and Mendoza, where only four or five cases now exist. In Montevideo, Uruguay, there are from fifteen to twenty cases and there have been eight or ten deaths.

A Rich Milwaukeean's Suicide.

MILWAUKEE, WIS., Jan. 30.—Temporary insanity, due to physical sufferings, caused John Dahlman to bang himself in his barn this afternoon. He was formerly one of the leading wholesale grocers of the city and amassed a fortune of \$800,000. He owned nearly half the residence portion of the Third Ward of this city.

Austria Getting Ready.

VIENNA, Jan. 30.—A grand imperial council was held to-day, over which the Emperor presided. All of the Austrian and Hungarian ministers were present. It was decided that the delegations should be convened, in March, to vote extra military credits of \$15,000,000, and a special credit for the equipment of the Landsturm.

France's Desire for Peace.

PARIS, Jan. 30.—M. Florentin, Minister of Foreign Affairs, has sent a dispatch to H. Herbetot, French Ambassador at Berlin, in which he urges the latter to lose no opportunity for impressing upon Germany France's earnest desire for peace, in which desire the whole Cabinet concurs.

Confesses the Crime.

NEW YORK, Jan. 30.—Edward Unger, the New York sausage peddler under arrest for the murder of his partner, August Bohle, whose headless body was discovered in a trunk at Baltimore, has made a full confession of the horrible crime.

Tracked With Blood-hounds.

ALBUQUERQUE, N. M., Jan. 30.—A gang of robbers who had been operating near here, were tracked with blood-hounds, surrounded by the officers, and in the fight that ensued one of the gang was killed and two others captured.

FORTY-NINTH CONGRESS.

Second Session.

WASHINGTON, Jan. 24.—SENATE.—The credentials of Senators-elect Farwell, of Illinois, and Davis, of Minnesota, were presented. A bill was passed providing that post-offices of the third class shall not be placed in the fourth class when the gross receipts amount to \$1,500, or where the compensation of the postmaster amounts to \$1,000. The retaliation bill to exclude Canadian vessels from American ports was passed—46 to 1. Riddleberger voting no. At 5:45 p. m. the Senate adjourned.

HOUSE.—Bills introduced: Proposing a constitutional amendment changing the time for the assembling of Congress to the first Wednesday of January of each year; to increase the naval establishment. It authorizes the construction of two steel cruisers of about four thousand tons displacement, of the type of "Cruiser No. 1," at a cost, exclusive of armament, of not more than \$1,000,000 each; five steel gunboats, of the type of "Gunboat No. 1," at a cost, exclusive of armament, of not more than \$250,000 each; and six steel torpedo-boats, having a maximum speed of not less than twenty-four knots per hour, to cost, exclusive of armament, \$100,000 each. The river and harbor bill was debated until 5:10 p. m., when the House adjourned.

WASHINGTON, Jan. 25.—SENATE.—Mr. Fairwell was sworn in. Mr. Hale's credentials for re-election were presented. The conference report on the army appropriation bill was presented and agreed to. The total of the bill is \$23,734,718. The conference report on the bill allowing lands in severalty to the Indians was also agreed to. The amendment to the constitution providing for woman suffrage was taken up, debated and defeated—yeas 34, yeas 18. Public building bills were passed for Minneapolis, Santa Fe, Chester, Pa., Chattanooga, Charleston, S. C., Jefferson, Tex., Hastings, Neb., and Hanover N. H.

HOUSE.—A communication was received from the Secretary of War disapproving the petition of enlisted men for the reduction to twenty-five years of the period of service for the retired list. The Rhode Island contested election case of Page vs. Pierce was debated all day. This majority report declaring the seat vacant was agreed to—yeas 131, yeas 83. The agricultural appropriation bill was reported.

WASHINGTON, Jan. 26.—SENATE.—Bills were reported and placed on the calendar. An amendment to the rules was offered by Mr. Hoar to require the presence of a quorum before prayer is offered by the Chaplain. A resolution directing an investigation into political outrages in Washington County, Texas, was adopted. At 2 p. m. The bill to establish agricultural experimental stations was taken up. After discussion and amendment, Mr. Hawley offered a substitute, and moved that bill and substitute be printed. The matter went over until to-morrow. Beck's railroad attorney bill was then taken up, and at 4:35 p. m. the Senate went into executive session.

HOUSE.—Senate's fisheries bill was referred to the Committee on Foreign Affairs. The conference report on the army appropriation bill was agreed to. The river and harbor bill secured precedences over the pleuro-pneumonia bill. An amendment providing that the appropriations be expended under direction of the President was rejected. An amendment was then offered, as a substitute for the bill, providing for an appropriation of seven and one-half millions, to be expended by a board of engineers. After a long debate the amendment was agreed to in committee of the whole, and then reported to the House and the previous question ordered. The substitute was rejected in the House by a vote of yeas 46, yeas 176, on its adoption, and this placed the original bill before the House. The bill was ordered engrossed, read the third time and previous question ordered. Reading of the engrossed copy was demanded, but as the bill had not been engrossed it could not be read.

WASHINGTON, Jan. 27.—SENATE.—Mr. Cullom announced that he would offer resolutions with reference to the late Senator Logan on Wednesday, February 9. Mr. Edmunds' postal telegraph bill was reported and placed on the calendar. A resolution was adopted directing an inquiry by the Finance Committee into the subject of receiving fractional silver into standard dollars. The bill for the relief of disabled veterans was taken up and passed without division. The agricultural experiment station bill was then passed. At 5 p. m. the Senate adjourned.

HOUSE.—The river and harbor bill was passed—yeas 194, yeas 194. The Senate bill was reported, providing the importation of adulterated articles of food. A joint resolution was reported providing for the election of Senators by the people of States. The District traction railway bill was taken up and discussed. There was filibustering to prevent a vote, and a recess was taken to carry the legislative day over until to-morrow at 11 o'clock. A night session was held for the consideration of pension bills.

WASHINGTON, Jan. 28.—SENATE.—A number of petitions were presented for the reduction or repeal of internal revenue taxes. The credentials of Senator-elect Quay, (Pa.) were presented. The Committee on Privileges and Elections was granted leave to sit during sessions of the Senate, to take testimony in the Texas outrage case. A bill was reported providing the National Dental Association and increasing the salaries

Jay Gould last week purchased the Little Rock, Mississippi River and Texas R. R., paying therefor \$1,600,000.

Mr. W. L. Mansfield, who a short time since took charge of the Wayne County (W. Va.) Advocate, has made marked improvements in that paper. In fact, it has become to be one of our best exchanges.

P. P. Pickard was last week nominated by the democratic caucus of the Tennessee Legislature, for Controller of that State. B. M. Cantrell was nominated by the same caucus for Register of Lands.

Through the influence of several Chinese gentlemen in Shanghai, the United States Consul General in that city has collected and sent to this country, \$1,620 for the relief of Charleston's earthquake sufferers.

The River and Harbor Bill has passed the House. It provides \$16,000 for the Big Sandy river, of which sum \$2,500 is to be expended on the Louisa Fork, and \$2,500 on the Tug Fork. The Kentucky river gets \$100,000.

Although the Democrats have decided majorities on joint ballot in the Legislatures of New Jersey, Indiana, West Virginia and Texas, the balloting for U. S. Senator goes fearfully on without any indication of an early election in either State.

There is a strike in the East among the coal haulers which it is predicted, will probably be the greatest labor movement of modern times. The Knights of Labor are threatening that every trade and interest shall feel their power unless the demands of the coal strikers are heeded.

Considerable talk of war between the United States and England, growing out of the Canadian fishery troubles, has been indulged in during the past week. A bill authorizing the President to protect and defend the rights of Americans in their fishing rights was passed with but one dissenting vote—Mr. Riddleberger, of Virginia.

A bill, known as the Dependent Soldier's Pension Bill, has been passed by both the House and Senate. This bill pensions all honorably discharged soldiers (who are now dependent upon their own labor for support) who were engaged in the Seminole, Mexican and other wars, entirely regardless as to whether they have subsequently gone into rebellion against the Government.

The Interstate commerce bill has passed both branches of Congress, and only awaits the President's signature to become operative. It prohibits discrimination in railroad rates and poolings, and declares that passengers and freight must be based upon rates reasonable and just. Rates can not be raised without ten days public notice, but can be reduced without any notice being given. Five commissioners are to be appointed, under the provisions of the bill, whose duty it will be to look after the faithful compliance of the railroads with the law. The railroad men predict much trouble and disaster; but now the bill is a law, it should have a fair chance to prove its good to the people at large. The overwhelming majority by which the bill passed both houses was a surprise to the railroads as it was to the country.—Capital.

An editorial in the first issue of the Mountain Cyclone is in its regular and customary style.

newspaper age, and amply worth a perusal. Here it is, read it through and you will understand it.

"We begin the publication of the 'Roccy Mountain Cyclone' with some phew diphtheries in the way. The type founders phron whom we bought our outfit phor this printing ophphice phailed to supply us with any ephs or cays, and it will be phour or phive wephhoje we can get any. The mystique was not phound out till a day ago. We have ordered the missing letters, and will have to get along without them till they come. We don't like the look of this variety of spelling any better than our readers, but mistakes will happen in the best regulated phamillies, and ph the ephs and c's and z's and p's hold out we shall ceep (sound the e hard) the 'Cyclone' whirling apher a phasion till the corts arrive. It is no joke to us—it's a serious apphair."—Ceredo Advance.

Diseases Dangerous to the Public Health.

Whenever any householder shall know or suspect that any person within his or her family, or who may be temporarily residing with him or her, is sick with small-pox, scarlet fever, diphtheria, cholera, or any other disease dangerous to the public health, he shall immediately give notice to the health officer within whose jurisdiction he may reside. In all cases where diseases dangerous to public health are reported, the officer within whose jurisdiction the disease occurs shall at once send one of the "Preventive Disease Circulars" to the infected household.

Whenever any physician shall know or suspect that any person whom he is called to visit has small-pox, scarlet fever, diphtheria, cholera, or any other disease dangerous to the public health, such physician shall give notice immediately, together with the locality and full description of the case, to the health officer, or to a member of the Local Board of Health within whose jurisdiction the disease or diseases may occur.

It shall be the duty of the attending physician and the head of the family to see that the proper flags of warning, under the instruction of the local health officer, be placed in the proper position. It shall be his further duty to give all persons affected with contagious or infectious diseases coming under his care, and those having charge or care of them, notice of the rules and regulations of this Board pertaining to all such diseases.

No parent, guardian, or other person having charge or control of any child or children shall allow or permit any such child or children to go from any house or building infected with small-pox, scarlet fever, diphtheria, measles, whooping-cough, cholera, and other contagious or infectious diseases, to attend any church, or public meeting, or place of amusement, or to travel in any street car or public vehicle.

No person shall be permitted to go from any house or building infected with scarlet fever, diphtheria, measles, cholera, small-pox, or other contagious or infectious diseases dangerous to public health, to attend any church, public meeting, or place of amusement, or travel in any street car or public vehicle without the permission of the health officer.

No person recovering from any infectious disease, dangerous to public health, shall be permitted to appear upon the public street or public highway, or in any public place, until all danger from contagion by reason of such disease is passed and a certificate from the local health officer or family physician to that effect placed in the hands of those in authority.

The room in which there has been a case of infectious disease, dangerous to public health, must be thoroughly disinfected immediately, and all infected clothing, bedding, carpets, furniture, etc., either cleaned and disinfected, or destroyed. All such work to be done under the supervision of the health officer.

In all cases of death from small-pox, scarlet fever, diphtheria, or cholera, the body should be wrapped in a sheet, saturated with a solution of corrosive sublimate (one ounce to a gallon of water) placed in a coffin as soon as possible, which should never be opened, and buried without any public demonstration or funeral.

The above are some of the rules of the Board of Health, and they will be rigidly enforced.

J. W. WEIR,
Health Officer Lawrence Co.

BERRYVILLE.

J. F. Meek is visiting friends and relatives at Waterloo, O.
W. D. O'Neal is attending the protracted meeting at Smokey Valley.

B. H. Dulaney has been on the sick list for a few days.
J. O'Neal is attending the Blaine High School.

W. T. Bradley has purchased a fine horse for \$40.00.
D. J. Whitley & Co. are still run-

ning their logging team.

Jake Roberts butchered the mammoth hog of this place this week; weight 350 lbs. net.

We are sorry to hear that Geo. H. Roberts is no better.

D. J. Whitley and D. W. Wellman have finished gathering their large corn crop.

D. L. Pigg has very sick child.
John Thompson has gone to Peach Orchard on business.

D. J. Whitley has gone to Little Sandy on business.

Rev. Shend, of your city, closed a very interesting series of meetings at the Smokey valley last week.

John Meek was visiting on Rock House last week.

The roads are almost impassable on account of so much wet weather.
Miss Addie Haws, of Prosperity, was visiting her parents near here last week.

J. F. Bradley and D. J. Wellman are visiting friends at Culbertson and Mavity in Boyd County.

Holt & Bussey are doing a good business with their saw and grist mills.

J. P. Rankin, of Bear Creek, was here this week huying cattle.

Miss Mollie Carter, of Blaine, is visiting her Uncle, John Meek.

Farmers have all about gathered their crops, and are preparing for this year's farming.

The growing wheat looks very bad throughout this section of the country.

What has become of Icanprovet and Somebody's Darling?
Success and long life to the News.

We have a few all Wool Shawls which we will sell at cost.

J. A. Hughes'.

If you want a suit of clothes it will pay you to see our line before purchasing.

J. A. Hughes'.

Have you seen those fine custom made Ladies' shoes at Hughes'?

He has the finest line ever brought to Louisa.

The conduct of some of the congregation at the revival meetings has been the subject of unfavorable comment.

The protracted meeting in progress at the M. E. Church is being attended with great success. Over fifty persons have been converted.

Mr. F. Prentice, of New York, who is a member of the company now sinking oil wells in the vicinity of Wartfield was in our city last week.

It is simply marvelous how quickly constipation, biliousness, sick headache, fever and ague, and malaria are cured by "Sellers Liver Pills."

Gen. Reagan, one of the many Democratic candidates for United States Senator in Texas, was elected Tuesday.

M. F. Rule, of Cincinnati, 41 Highfold, of Dayton, O., Charles Straus, of Richmond, Va., and J. W. Workman, of Columbus, O., were registered in the Chattahoochee Thursday.

I solemnly certify that I gave "Dr. Sellers' Vermifuge" to my little son, and, after following the directions, it expelled 60 large worms. Daniel Carigan.

We have been requested to say that persons living in the country and wishing to attend school here, can obtain good board at Mrs. McCullough's, Mr. Roff's and J. C. Layne's.

PROPOSALS INVITED.—Sealed proposals will be received at this office until Feb. 29th for wishing the Office Towels. Contractors may bid for furnishing the soap by the hundred pounds, or for the entire job.

We are pleased to see that in a recent entertainment given at Wesleyan College, Cincinnati, by the Junior Class of that institution, Miss Nora Roderger, of Richardson, and Miss Gypsie Northrup, of this place, took prominent parts.

Notice. All persons having whooping-cough, measles, scarlet fever or any other contagious diseases in their houses are notified to put out a sign. By order of board of Health. P. W. Wells, Health Officer of Lawrence Co.

Who steals my purse steals trash, but he who deprives me of the use of Cousens' Honey of Tar, makes me poor in health. When I have a cough, cold or disease of the throat or lungs, I want Cousens' Honey of Tar, because I have seen it tried for those ills, with unvarying success and know its virtues. Ed.

NOTICE.—All parties indebted to the firms of C. D. Norris & Co and Freese & Norris will please come forward and settle or their accounts will be placed in the hands of an officer for collection, before the first of March, 1887, as we desire to change our business. O. D. Norris & Co. Freese & Norris.

Whites Cream Vermifuge is good for the ophiops certain, when the claps are troubled with worms. When their presence is indicated in the stomach by the usual unmistakable symptoms, only give the boys and girls a dose of Whites Cream Vermifuge and worms will follow as surely as the night does the day. Remember Whites' Cream Vermifuge will expel worms.

John Billups, John Jones and Lou Vinson were present in Miss Hannah Moore's department of the Louisa Public School every day of the five months term just closed. The following also deserve honorable mention for their good attendance: Ben Leffingwell, absent two days of five months term; Frank Marcum, absent three days; Henry Snyder absent one day.

Let us discard a beginning, and begin by a conclusion of the whole matter, which is, that Cousens' Honey of Tar for coughs, colds, and diseases of the throat and lungs, is unequalled. There are numberless imitations of this excellent remedy, but only one Cousens' Honey of Tar, a positive cure for coughs, colds, and diseases of the throat and lungs.

KIND WORDS.—Kind words I how cheap, indeed, and yet how very dear. Kind words are Heaven's sweet Angel messenger. So is J. Monroe Taylor's Gold Medal Soda or Saleratus earth's sweetest messenger to all who love a good, nice, light, white Biscuit. You had better throw your flour away, and go hungry, rather than use any other. Call for J. Monroe Taylor's and have no other; It is harmless as flour. Try it. Most everybody sells it. Depot, 113 Water Street.

RHEUMATISM AND NEURALGIA CURED in 2 DAYS.

The Indiana Chemical Co. have discovered a compound which acts with truly marvelous rapidity in the cure of Rheumatism and Neuralgia. We guarantee it to cure any and every case of acute inflammatory Rheumatism and Neuralgia in 2 days, and to give immediate relief in chronic cases and effect a speedy cure.

On receipt of 30 cts. in two cent stamps, we will send to any address the prescription of this wonderful compound, which can be filled by your home druggist at small cost. We take this means of giving our discovery to the public instead of putting it out as a patent medicine, it being much less expensive. We will gladly refund money if satisfaction is not given.

THE INDIANA CHEMICAL CO., Crawfordsville, Ind.

List of Letters in Louisa P. O. unclaimed and uncalled for: Sarah Adins, Con Brady, Arthur Berry 2, Jas. M. Berry, Sam Crabtree, Nan Caldwell, F. N. Compton, J. F. Copley, Wm. Curran 3, Jno. W. Carter, Lewis Ekers, Marvin Elkins, Mrs. S. K. Egan, Lewis Fuller 3, J. W. Hurley, Ira Hale 3, Greenville McCormack 2, Frank Maynard, Mrs. Vint McFannin, McGager McCormick 2, Nannie Morarity, Henry Osten, Lollie A. Perkins, T. F. Perry, Ben Potter, Ephrim Queen 2, Mrs. Annie Reinhardt, Jno. Roberts, George W. Shortage, Momi Spalding, Jno. E. Spencer. C. C. SULLIVAN, P. M.

WHAT TYPE MERIT WILL DO. The unprecedented sale of Boscobee's German Syrup within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of equine colds, and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a cough and leave the disease still in the system but on the contrary, removes the cause of the trouble, heals the parts effected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctor's bills and a long serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price 75 cts., large bottles.

Editors Big Sandy News:—Your issue of last week had a communication from Pikeville signed "A Citizen." The author was wasting his indignation, as the story of Mr. Broas having been shot was told about that gentleman without his knowledge, having been started by a practical joker as a piece of fun, because as Mr. Broas landed from the boat in which he had paddled down the river he "walked lame" in coming up the grade.

However it is not to contradict the hooting story that this is written as the alleged victim has himself denied it, and his veracity is so well established his own word settles the question wherever he is known.

But there is the statement that many of the people of Pikeville believe Mr. Broas started the story from some interested motive; and this reflection on that gentleman is so unjust and entirely undesired it should not pass without notice. During the six years he has been operating in the Big Sandy Valley he has probably spent more money in prospecting for iron and oil and in developing coal veins than all other people combined have expended for such purposes in this valley, in the same time. He also effected the largest cash purchase in Martin, Floyd and Johnson counties, both as to the amount of money and number of acres involved, that has been made for years in this section.

As by uniform fair dealing and keeping of promises Mr. Broas has won a reputation for truth and honesty, and has sought in the past, as he is yet doing, to interest outside capital to develop and utilize our mineral resources, and attract immigration to this part of the world, he has proven a welcome visitor and a good friend to the people of the Big Sandy valley.

FAIR PLAY.

HOW'S THIS!

We offer One Hundred Dollars Reward for any case of Catarrh that can not be cured by taking Hall's Catarrh Cure. F. J. CHENEY & CO., Proprietors, Toledo, O.

P. S.—Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75 cts. per bottle, sold by all Druggists.

A Chance for Health

Is afforded those fast sinking into a condition of hopeless debility. The means are at hand. In the form of a genial medicinal cordial, Hostetter's Stomach Bitters embodies the combined qualities of a blood purifier and depurative, a tonic and an alternative. While it promotes digestion and assimilation, and stimulates appetite, has the further effect of purifying the life current and strengthening the nervous system. As the blood grows richer and purer by its use, they who resort to this sterling medicinal agent, acquire not only vigor, but bodily substance. A healthy change in the circulations is effected by it, and that sure and rapid physical decay, which a chronic obstruction of the functions of the system produce, is arrested. The prime causes of disease being removed, health is speedily renovated and vigor restored.

Itch, Mange, and Scratches of every kind cured in 30 Minutes by Woolf's Sanitary Lotion. A sure cure and perfectly harmless as warranted by Freese & Norris, Druggists, Louisa.

VOLINA CORDIAL

MANY PERSONS at this season suffer from either Headache, Neuralgia, Rheumatism, Pains in the Limbs, Back and Stomach, Indigestion, Dyspepsia, Malaria, Cerebral Palsy, & Kidney Trouble.

VOLINA CORDIAL CURES RHEUMATISM. Bad Blood and Kidney Trouble, by cleansing the blood of all impurities, strengthening all parts of the body.

VOLINA CORDIAL CURES SICK-HEADACHE. Neuralgia, Pains in the Limbs, Back and Stomach, by toning the nerves and strengthening the muscles.

VOLINA CORDIAL CURES DYSPEPSIA. Indigestion and Constipation, by aiding the assimilation of the food through the proper action of the stomach; it creates a healthy appetite.

VOLINA CORDIAL CURES NEURALGIA. Depression of spirits and Weakness, by enlivening and toning the system.

VOLINA CORDIAL CURES OVERWORKED and Debilitated Women, Puffy and Sickly Children, and all other ailments, by restoring the system to its normal state.

Volina Astringent and Diarrhoeal for 1887. A handsome, complete and useful book, containing full directions for the use of VOLINA CORDIAL, at 10 CENTS (in a pleasant, natural way). Mailed on receipt of a 2c. postage stamp. Address: **VOLINA DRUG & CHEMICAL CO., BALTIMORE, MD., U. S. A.**

FOR MAN AND BEAST!

Mexican Mustang Liniment

CURES

Scoliosis, Lambege, Rheumatism, Burns, Scalds, Stings, Bites, Bruises, Swellings, Corns,	Scratches, Sprains, Strains, Stitches, Stiff Joints, Backache, Galls, Sprag, Spavin, Cracks,	Contracted Muscles, Eruptions, Hoof All, Scabs, Worms, Swinney, Saddle Galls, Piles.
--	--	--

THIS GOOD OLD STAND-BY accomplishes for everybody exactly what is claimed for it. One of the reasons for the great popularity of the Mustang Liniment is found in its universal applicability. Everybody needs such a medicine. The Lumberman needs it in case of accident. The Housewife needs it for general family use. The Farmer needs it for his team and his horse. The Merchant needs it always on his work bench. The Miner needs it in case of emergency. The Planter needs it—can't get along without it. The Farmer needs it in his house, his stable, his barn yard. The Steamboat man or the Boatman needs it in liberal supply aboard and ashore. The Horse-fancier needs it—it is his best friend and safest reliance. The Stock-grower needs it—it will save him thousands of dollars and a world of trouble. The Railroad man needs it and will need it as long as his life is a record of accidents and dangers. The Blacksmith needs it. There is nothing like it as an antidote for the dangers to life, limb and comfort which surround the pioneer. The Blacksmith needs it about his store among his employees. Accidents will happen, and when these come the Mustang Liniment is wanted at once. Keep a Bottle in the House. 'Tis the best of economy. Keep a Bottle in the Factory. Its immediate use in case of accident saves pain and loss of wages. Keep a Bottle Always in the Stable for use when wanted.

SHAMEFUL ABUSE

Heaped Upon a Noted Englishman for His Opinions.

Wm. E. Ross, M.D., I.R.C.S.I., M.K.Q.C.P., late of the Royal Navy, of England, has got into professional trouble for writing the following open letter to the editor of the London *Family Doctor*:

"I believe it to be the duty of every physician to make known any means or remedy whereby sickness can be prevented, and it is for this purpose I write to give my experience both here and abroad. I am the publication of the statement that people may be warned before it is too late, to say to them that there is at hand a means by which they may be restored to perfect health. It is well known to the medical world, and, indeed, to the laity, that a certain disease is making a terrible havoc; that most to consumption is the most fatal, and that when fully developed there is nothing to be done for the sufferer."

"Physicians and scientists have long been trying to throw light upon the cause, and if possible, find in nature a medicine for this fatal malady. They have shown, absolutely, that the blood-purifying organs of vital importance, are the kidneys, and that when they once fail, the poison which they should take out of the blood is carried by the blood into every part of the body, developing disease."

"In my hospital practice in England, India and South America, and also while a surgeon in the Royal Navy of Great Britain, I gave a great deal of attention to the study of diseases of the kidneys and urinary organs, and found that not only was the cure of chronic Bright's Disease hopeless, but that kidney disease was remarkably prevalent, much more so than generally known, and was the cause of the majority of cases of sickness, and further, that the medical profession has no remedy which exerts any absolute control over these organs in disease."

"Some time ago when I had a case which resisted all regular treatment, which is very limited, complicated with the passing of stones from the kidneys, much against my will I permitted my patient to use Warner's safe cure, of which I had heard marvelous results. In his case the result was simply marvelous, as the attack was a severe one, and development very grave, for an analysis showed per cent. of albumen and granular tube casts."

"The action of the medicine was singular and incomprehensible to me. I had never seen anything like it. The patient recovered promptly, and to-day is a healthy man. This stimulated my inquiry into the merits of the remedy, and after analysis I found it to be of purely vegetable character, harmless to take under all circumstances."

"Casting aside all professional prejudice I gave it a thorough trial, as I was anxious that my patient should be restored to health, no matter by what medicine. I prescribed it in a great variety of cases, Acute, Chronic, Bright's Disease, Congestion of the Kidneys, Catarrh with Hematuria, and in every instance did it speedily effect a cure."

"For this reason I deem it my duty to give the world this statement regarding the value of Warner's safe cure. I make this statement on facts I am prepared to produce and substantiate. I appeal to physicians of large practice who know the common and deadly diseases of the kidneys, are to lay aside professional prejudice, give their patients Warner's safe cure, restore them to perfect health, and their gratitude, and thus be true physicians."

"I am satisfied that more than one-half of the deaths which occur in England are caused, primarily, by disease of the kidneys, and the consequent retention in the blood of the poisonous uric and kidney acid. Warner's safe cure causes the kidneys to expel the poison, checks the escape of albumen, relieves the inflammation and prevents illness from impaired and impoverished blood. Having had more than seventeen years' experience in my profession, I conscientiously and emphatically state that I have been able to give more relief and effect more cures by the use of Warner's safe cure than by all the other medicines ascertainable to the profession, the majority of which, I am sorry to say, are very uncertain in their action."

"Hast that a straightforward, manly letter?"

"Well, it is."

"I need, but do you know the author has been dreadfully persecuted for writing it?"

"How so? What has he done to merit it?"

"Don't! He has spoken the truth out of school, and his fellow physicians, who want the public to think they have a monopoly in curing disease, are terribly angry with him for admitting professional inability to reach certain disorders."

"That letter created a wonderful sensation among the titled classes and the public. This jarred the doctors terribly. The College of Surgeons and Queen's College, from which institution he was graduated, asked for an explanation of his unprofessional conduct, and notified him that unless he made a retraction they would discipline him."

"The doctor replied that he allowed his patients to make use of Warner's safe cure only after all the regular methods had failed, and when he was satisfied that there was no possible hope for them. Upon their recovery, after having used Warner's safe cure, he was so much surprised that he wrote the above letter to the *Family Doctor*. He regretted that the fact had found fault with his action in the matter, but he could not conscientiously retract the facts as written to the *Family Doctor*."

"The faculties of both colleges replied that unless he retracted they should cut him off, which would naturally deprive him from *any* practicing his profession, and also prevent his securing another appointment in the Royal Navy."

"The illustrious doctor's dilemma is certainly an unpleasant one, emphasizing, as it does, both his own honesty, and the contemptible prejudice and high opinion of English medical men. The masses, however, having no sympathy with their nonsense, keep on using the good old Warner's safe cure, and get well, while the rich and able depend upon the prejudiced doctors and die!"

CHESTNUT heir the son of a negro minstrel.

"I Don't Want Relief, But Cure," in the exclamation of thousands suffering from catarrh. To all such we say: Catarrh can be cured by Dr. Sage's Catarrh Remedy. It has been done in thousands of cases; why not in yours? Your danger is in delay. Enclose a stamp to World's Dispensary Medical Association, Buffalo, N. Y., for pamphlet on this disease.

An Important Arrest.

The arrest of a suspicious character upon his general appearance, movement, and companionship, without waiting until he has robbed a traveler, fired a house, or murdered a fellow-man, is an important function of a shrewd detective. Even more important is the arrest of a disease which, if not checked, will blight and destroy a human life. The frequent cough, loss of appetite, general languor or debility, pallid skin, and bodily aches and pains, announce the approach of pulmonary consumption, which is promptly arrested and permanently cured by Dr. Pierce's "Golden Medical Discovery."

It is the lawyer who always stands to reason.—*The Judge*.

Weak lungs, spitting of blood, consumption and kindred affections, cured without physician. Address for treatment, with 10 cents in stamps, World's Dispensary Medical Association, 603 Main St., Buffalo, N. Y.

The Indian smokes the pipe of peace, the Irishman a piece of pipe.

Relief is immediate, and a cure sure. Pisto's Remedy for Catarrh. 50 cents.

What kind of eggs are plots hatched from?—*Lowell Citizen*.

The Record

Of cures accomplished by Hood's Sarsaparilla can never be completely written. Thousands with hearts overflowing with gratitude have written to us telling of the wonderful things Hood's Sarsaparilla has accomplished for them. The powerful curative powers of Hood's Sarsaparilla are such that when everything else has failed, if your blood is impure, your digestion out of order, your kidneys and liver diseased, your body full of humors, and your blood full of poisons, try this peculiar medicine. It will do you good.

"For twenty years I have been troubled with dyspepsia and indigestion. My bowels were constipated, so that I had to take pills continually. I tried many different medicines to no effect. Last spring I was recommended to try Hood's Sarsaparilla, and one bottle cured me. My bowels are now regular, I have no liver difficulty, and the dyspepsia has entirely disappeared. I can eat anything with out distressing me. Hood's Sarsaparilla was a God-send to me." J. B. HONAN, 30, Fall River, Sullivan Co., N. Y.

Hood's Sarsaparilla

Sold by all druggists. \$1 per box. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

BENSON'S CAPSICINE POROUS PLASTER

HIGHEST AWARDS OF MEDALS IN AMERICA AND EUROPE.

The greatest, quickest, safest and most powerful remedy known for Rheumatism, Neuralgia, Sciatica, Sprains, Burns, Swellings, Cuts, Bruises, and all other painful affections. It is a powerful antiseptic, and prevents the formation of pus. It is a powerful anesthetic, and relieves the most excruciating pain. It is a powerful stimulant, and restores the vitality of the system. It is a powerful sedative, and relieves the most violent inflammation. It is a powerful expectorant, and relieves the most violent cough. It is a powerful cathartic, and relieves the most violent constipation. It is a powerful diuretic, and relieves the most violent dropsy. It is a powerful antispasmodic, and relieves the most violent spasms. It is a powerful antineuralgic, and relieves the most violent neuralgia. It is a powerful antirheumatic, and relieves the most violent rheumatism. It is a powerful antiscorbutic, and relieves the most violent scurvy. It is a powerful antivenereal, and relieves the most violent venereal disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis. It is a powerful antiscrophulous, and relieves the most violent scrophulous disease. It is a powerful antisyphilitic, and relieves the most violent syphilis. It is a powerful antileprosy, and relieves the most violent leprosy. It is a powerful antitubercular, and relieves the most violent tuberculosis. It is a powerful antiparasitic, and relieves the most violent parasitic disease. It is a powerful antipneumonic, and relieves the most violent pneumonia. It is a powerful antiphthisical, and relieves the most violent phthisis.
